This month...

We have observed how much the children are enjoying positioning, rotating, and enclosing games/activities! They have been building castles, and learning to crochet with yarn. As well, they enjoyed building and creating their own haunted houses, and making lady bug homes!

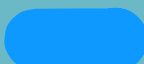

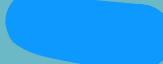

Next Month...

We will continue to support the children's journey through positioning, rotating, and enclosing. We have many fun activities that will allow the children to express their creativity! They will be building forts, stores/restaurants, and creating their own jewelry!

Happy Birthday!!
